**TAMIL**

Tamil has an important place in understanding South Asia. Being predominantly a modern language spoken chiefly in India, Sri Lanka, Malaysia, and Singapore it is a classical language boasting a continuous history of writing of about 2,000 years with inscriptions, literary and commercial texts.

**ENGLISH**

English is the Language of International Communication. Although English is not the most spoken language in the world, it is the official language in 53 countries and is spoken as a first language by around 400 million people worldwide. But that's not all. It is also the most common second language in the world.

**MATHS**

Math helps us have better problem-solving skills. Analytical thinking refers to the ability to think logically about the world around us. Reasoning is our ability to think logically about a situation. Analytical and reasoning skills are important because they help us solve problems and look for solutions.

**SCIENCE**

Science is one of the most important objects of knowledge. It has a specific role, as well as a variety of functions for the benefit of our society: creating new knowledge, improving education, and increasing the quality of our lives. Science must respond to societal needs and global challenges.

**HISTORY**

By studying societies and understanding how people behave and interact, we can help to build better societies.
