

Subjects in School

TAMIL

Tamil has an important place in understanding South Asia, being simultaneously a modern language spoken chiefly in India, Sri Lanka, Malaysia, and Singapore and a classical language boasting a continuous history of writing of about 2,500 years with inscriptional, literary and communitarian texts.

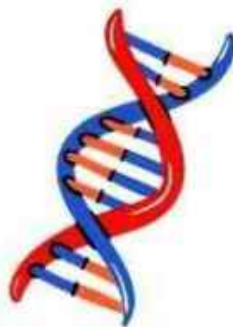

ENGLISH

English is the Language of International Communication. Although English is not the most spoken language in the world, it is the official language in 53 countries and is spoken as a first language by around 400 million people worldwide. But that's not all, it is also the most common second language in the world.

MATHS

Math helps us have better problem-solving skills. Analytical thinking refers to the ability to think critically about the world around us. Reasoning is our ability to think logically about a situation. Analytical and reasoning skills are important because they help us solve problems and look for solutions.

SCIENCE

science is one of the most important channels of knowledge. It has a specific role, as well as a variety of functions for the benefit of our society: creating new knowledge, improving education, and increasing the quality of our lives. Science must respond to societal needs and global challenges.

HISTORY

By studying societies and understanding how people behave and interact, we can help to build better societies.
